CLARITY TOURBILLON & INVISIBLE ROTOR
(AUTOMATIC)

MENTORING

COLLABORATION WITH THE MASTER WATCHMAKER VIANNEY HALTER

DUKE by Vianney Halter, a Limited Edition of 8 pieces, is not only a simple collaboration, it means much more for DUKE's founder, as the Master Watchmaker Vianney Halter is his mentor.

After the success of the FIRST EDITION, they together imagined the evolution of the Clarity Tourbillon.

AS PROOF OF LONG-TERM COLLABORATION AND PERFECTION,

an 18k Rose Gold Hand Engraved signature plate "By Vianney Halter" is placed on the dial.

THE GOAL

NOTHING SHOULD OBSCURE THE CLARITY OF THE TOURBILLON

Nothing, not even the hands.

For this reason we decided to develop a Jumping Hour and a Reversity Minute (Retrograde).

These new complications were added to the Clarity Tourbillon and the Invisible Rotor (automatic) and assembled in the instantly recognizable watchcase.

UNPARALLELED

DESIGN AND CRAFTSMANSHIP

The dial testifies unrivalled attention to detail. Made of a slightly transparent Smoked Sapphire to let appear the exclusive watch mechanism, the dial is decorated with solid 18K Rose Gold appliques (logo, guichet and numbers).

Each applique delicately placed one after the other by hand. A solid 18k Rose Gold chapter ring, with a minimalist minute track, fulfills the dial.

The complex reversity minute hand, openworked, is made of Titanium Grade 5 due to technical purposes of the retro-jump.

DECORATIONS

EXCLUSIVE ARTWORKS

The main plate and the bridges are entirely hand beveled (anglage main), microblasted and finally black PVD treated.

The screws are mirror polished (black polished) and all the other components, without exception, are hand decorated.

A UNIQUE CARBON FIBER INFUSED WITH 18K ROSE GOLD

has specially been developed for this exclusive limited edition.

All DUKE timepieces are entirely decorated by hand. This dedication to handcrafting ensures that each watch meets the highest standards of quality and artistry, making the DUKE BY VIANNEY HALTER a true masterpiece in the world of horology.

TECHNICAL SPECS

GENERAL DESCRIPTION

Model
BY VIANNEY HALTER
Limited Edition
1 of 8
Case Meterial
